

RENOVATION OF SCREWS AND BARRELS

D**A****T****R****I****A**
MEMBER OF RADKA GROUP

Before renovation

After renovation

We use the most modern equipment for surface finishes of screws with the PTA welding technology with hardness up to 64HRc.

**RENOVATION FROM THE DIAMETER 30 MM – 250 MM UP TO THE LENGTH 7000 MM.
HONING FROM THE DIAMETER 5 MM UP TO 1 M, LENGTH 10 M.**

The PTA technology we use eliminates cracks in the weld screw layer and ensures the highest quality and service life of screw surfaces. Perfectly suitable for extreme conditions, for example when processing plastics containing abrasive particles.

OUR STANDARD DELIVERY TERMS

1 – 2 weeks for screw renovation

3 – 4 weeks for renovation of the complete screw and barrel set
